# Project description and requirements

## Background

The purpose of this assignment is for you to show off what skills you have and how you can use these skills to represent what you see using visual language. You will be asked to concentrate on the formal elements of line, tone, form, shape, surface, texture, pattern and space. You must annotate your work with reference to these formal elements.

## Assignment

We would like you to begin with analysing a piece of art you admire that encompasses your perspective on the theme of Journey. You should complete this by selecting the artwork from visiting current exhibitions or looking at various Online Exhibitions that are currently available, then using the writing frame 1 provided complete an extended piece of analysis on it.

Produce a variety of different studies on the theme of Journey. Anything related to the theme that you enjoy or find interesting should be explored through drawing, fashion / textiles, graphic design, photography or any other media available to you. Trying to show how you can develop an idea across several pages.

If you are stuck and don't know what to record, perhaps look at some examples of other creatives to inspire you. Many artists have used the theme of Journey as part of their work so you should be able to find someone whose work you like.

Think about the composition of each page you produce and try to create a style that has consistency but has originality.

**You should produce a minimum of 10 completed slides / pages including: visual analyses, several experimentations / outcomes with annotations (see framework 2) & evaluations (see framework 3).**

**This will form part of your coursework so please take your time and ensure that you pro-**

## Writing Evaluations

At the end of each project an evaluation should be written. This is important as you should be able to critically evaluate your own work. To improve you need to learn from any mistakes you have made and being able to build on good practice, will help you to improve. It will also help you to assess the work of others.

Your evaluation should include the following –

Which of your outcomes is the most successful and why?

What do you think your best work communicates to others?

What new skills or techniques have you developed or refined & give a specific example of a piece where this is obvious

How could you develop your practical skills further now? What could be refined and how - media, process, scale etc

How could you develop your concept/idea further now?

Explain the most successful sample/s in terms of formal elements and how they actually work (surface, colour, pattern shape, line, space, tone, composition, juxtaposition, impact, variety of marks etc) – how well do these work?

How could you refine certain methods - what and why

How could one of your samples be developed within a different subject area e.g. Design object, Fashion garment, Fine Art context, Photographic booklet etc.
