Stamford College

BTEC LEVEL 3 EXTENDED DIPLOMA IN INFORMATION TECHNOLOGY

Summer Project

2025 - 2026

Summer Project

BTEC Level 3 Extended Diploma in Information Technology

Start Date: September 2025

Welcome!

Thank you for enrolling on the BTEC Level 3 National Extended Diploma in Information Technology. We are excited to support your journey into the world of digital technologies and development.

Before the course begins, we'd like you to complete the following summer project to help prepare you with some foundational web development skills.

Step 1: Complete an Introductory HTML Course

• Go to Codecademy: https://www.codecademy.com/enrolled/courses/learn-html

• Create a free account if you do not already have one.

• Complete the course titled "Learn HTML".

• Estimated duration: ~7 hours.

Proof of Completion

Once you have completed the course, take a screenshot showing 100% completion of the progress bar.
Send the screenshot to your course tutor via email. Aaron.sismey@ieg.ac.uk

Step 2: Create a Personal Website

Now that you have learned the basics of HTML, it's time to put that knowledge into practice.

Instructions

• Download and install Visual Studio Code from: https://code.visualstudio.com/
• Use HTML to create a simple website with multiple pages, that includes the following sections:
  - A homepage introducing yourself
  - A section about your hobbies
  - A section containing at least three interesting facts about you

Make sure your website is clean, easy to navigate, and makes good use of the HTML skills you've just learned.

Step 3: Submission Instructions

• Take a screenshot of your Codecademy HTML course showing 100% completion.

• Save your website files in a folder and email them as a ZIP file.

• Email both the screenshot and your website ZIP file to your course tutor.

This summer project is a great opportunity to demonstrate your enthusiasm and creativity. It will also give us a sense of your starting level and help ensure you're ready to begin the course. This is expected to be completed before enrolment.

We look forward to seeing your projects and meeting you in September!
